Three Convicted Of Spotlighting, Deer Kill, Assault

Three men of the Dung Hill Morgantown Road, the night of area were convicted Monday in November 12, according to District Court by Judge Lewis Lena Lawson, Friendsville. H. Jones. Charges included Value of the com was \$300. spotlighting, illegal deer kill. Someone removed a ten-foot

and assault. Arthur Beitzel, 30; his brother, owned by Russell A. Biette, Hayward Paul Beitzel, 40, and Murrayville, Pa. The car was their uncle, William Clay parked in the lot at Browning's Bettzel, 50, all of the Dung Hill Oakland Foodland at the time area. All three pleaded not of the larceny. The stolen item guilty of three charges each: was valued at \$51. spotlighting, killing a fawn Tools and a saw were taken deer out of season, and assault from an outbuilding on the on Paul E. Miller and Raymood H. Wilt by shooting a weapon in their direction from a pickup. The incidenta occurred on the Wilt farm along U. S. 40 near the Pennsylvania state line. All were found guilty on all three charges. Miller and Will were checking the fawn that was killed.

Judge Jones ordered a presentence investigation. Sgt. H. W. Graham of the Maryland State Police and Pfc. John Williams of the Natural Resource. Police investigated the crime which occurred August 26.

Driveshaft, Vacuum Cleaner Stolen

Several larcenies are under investigation by the Garrett County Sheriff's Department. One man reported that a driveshaft had been removed from his garden tiller, another said that someone had taken a vacuum cleaner from his bome.

Frank W. Broden, Jr., of Kensington, told police that someone had entered his summer home on Harvey's Peninsula between the end of October and November 10. Items missing included various alcoholic beverages and a vacuum cleanar. Total loss value, including the window which had been broken to gain entry, was \$345.

Irving Day, Swanton, reported that between Nevember 7 and 13, someone had removed the driveshaft from his garden tiller at Frick's Crossing. Deer Park. Value of the stolen part was \$106.

POET'S PODIUM

By Jim Willis

this lovely poem by lois P. truy of Bloomington recalls the

THANKSGIVING

We thank you Lord for everything.

Of stately trees and dusty earth.

For air we breathe and birds that sing For rain that falls to quench the thirst

For all the lovely flowers as they bloom

To dispel darkness spread with gloom.

For snow that blankets earth with white. For sur and meen that gives us light.

For plants that grow in the warm earth.

We plant the seed but you give growth. For water in the streams that flow.

For breezes in the trees that blow, For friends and family even for

Who aid us as through life we go.

For food You give us every day. For answers to the prayers we pray. For life and love and helping hands.

For One e'er all who understands.

As with the millions we can share

Where all Thy people stand more tall.

We thank thee for these many years Free from the strife of other's fears.

Grant us wisdom to know Thy ways

A beacon of hope in Thee we find.

We think You now for being near

To lead and guide and keep us free

You Land, in this 1978th year

In this our land of liberty.

Thy still small voice to hear these days.

When troubled times would cloud our mind

Iola P. Guy.

A life of liberty for all

Thanks for our Country's freedom here

PROPOSED FLOOD ELEVATION DETERMINATIONS FOR THE TOWN OF

FRIENDSVILLE, GARRETT COUNTY, MARYLAND AGENCY- Federal Insurance Administration, HUD.

ACTION Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base [100 year] flood elevations listed below for elected locations in the Town of Friendsville, Garrett County,

Maryland These base (100 year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP) DATES

The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of inculation in the above named community.

Maps and other information showing the detailed outlines of the flood prome areas and the proposed base (100 year) flood elevations are available for review at the Friendsville Library. Friendsville Maryland Send comments to Honorable Karol Rijsh, Mayor of Friendsville, Friendsville, Maryland 21931.

FOR FURTHER INFORMATION CONTACT Mr Richard Krimm, Assistant Administrator, Office of Flood Insurance (202) 755 5581 or Toll Free Line (800) 424 8872.

Procedures for making such requests are set forth with this notice in the Maryland Register of Newtonber 17, 1975, and in COMAR US 65 66. The applications, draft permits, and other information are on file and may be inspected, and arrangements made for copyoning Requests for information, and any written requests for information, and any written requests for information, and any written requests for information. Garrett Tops In Visitors of Mr. and Mrs. Savings Bond Sales

Garrett County in far and away the top ranking county in the state in sales of Series E

and H Savings Bonds, for the month of September. Garrett has 140 percent of its Mr. and Mrs. Ronald Baker, 1978 quota, or \$586,568. Quota was \$415,320. Sales during Sep-

tember amounted to \$73,603. During the year 1977, only \$486,640 worth of bonds were

Second in the state was Baltimore City, with 96 percent of its \$57,708,200 quota. Allepercent of its goal, while bringing up the end of the list is Howard county, with only 31 percent of the 1978 quota.

Average percentage of quota attainment is now 71 percent, down from the 75 percent usually attained by this time.

Across the nation, Series E and H sales for the nine month period ending September 30 totalled \$8,148 million, slightly above last year's total for the same period. Series E sales of \$5,960 million were \$137 million above January-September 1977 E sales.

A continued decline in savings rates, which the U.S. Savings Bonds division is experiencing along with the re- for the December meeting. mainder of the savings in-July-September quarter.

rett County to correspond with a lower income bracket of must of the citizens. What is your response to this?.

A. As we stated, we are

presently arriving the lowest cost hospitals in the state and we hope to stay that way. However, the equipment and supplies that we purchase costs the same for us as it does for any other hospital The difference lies in the salaries of our personnel. Our people have in the past been part lower salaries than their counterparts in other area hospitals. We have upgraded and will continue to upgrade our employees' salaries to a more competitive level Labor costs account for 70% of a hospital's budget and, naturally, as salaries go up the rates must also go up. We would also like to point out that all but about 12% of our patients are covered by sense form of medical insurance, medicare or medicaid to offset their hospital costs. Those who have no such coverage are given numerous means of financing their bills to the hespital in whatever way is

comfortable to them. Q. Now on to the building program. - Why do we need

such a program? A. The impetus for the program was an inspection some four years ago by federal officials which showed Garrett Clouds again with federal standards to the turne of 1-150 million deliars. lidvise us in him to cumply chespest way would be, obsmoundy, to spend the collion and a balf on renovation. Put Maxi to work for you

Maxi is the new symbol of Southern States CROPS AND SOILS MANAGEMENT SERVICE. A service that helps you maximize yields and profits by knowing more about your soil. This complete soil inventory program, including plant tissue testing, enables you to spot deficiencies and excesses in primary and secondary plant foods and micronutrients. You'll know your soils' plant food holding capacity (Cation Exchange Capacity), its pH level, its organic matter content, estimated nitrogen release plus other soil data. With this knowledge, you can avoid overspending or underspending for fertilizer. Give us a call or come in and let's talk more about Southern States CROPS AND SOILS MANAGEMENT SERVICE It'll be a profitable conversation.

PROPOSED FLOOD ELEVATION DETERMINATIONS FOR THE TOWN OF FRIENDSVILLE, GARRETT COUNTY, MARYLAND Pursuant to regulations of the Commission, public notice is hereby given of the following: AGENCY: Federal Insurance Administration, HUD. ACTION: Proposed rule.

SUMMARY Technical information or comments are solicited on the could of competent parallelisselected locations in the Town of Friendsville, Garrett County, Maryland. required to either adopt or show evidence of being already in section TRACE

effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NF(P))

Expected Gross DATES. The period for comment will be ninety (91) days following Votume on Budgeted Volume) the second publication of this proposed rule in a newspaper of PASSED November 2.

local circulation in the above named community \$1.419.033 ADDRESSES 37,745. Maps and other information showing the detailed outlines of Africa Glady A. Surda A. the flood-prone areas and the proposed base (100-year) flood (167% elevations are available for review at the Friendsville Library. - Adv 60-11. Enlengsville, Mary land. Send comments to repossible Karol Rush, Mayor of Friendsville, Maryland 21531

FOR FURTHER INFORMATION CONTACT. Mr. Richard Keimmi, Assistant Administrator, Office of Flood Insurance, (202) 755-3587 or Toll Free Line (800) 424-8872 Room 5270, 451 Seventh Street, SW, Washington, D. C. 20410. SUPPLEMENTARY INFORMATION The Federal Insurance Administrator gives notice of the proposed determinations of base (100 year) flood elevations for the Town of Friendsville, Garrett County, Maryland, accordance with section 110 of the Flood Disaster Protection Act of 1971 (Pub. L. 9) 2341, 81 Star. 950, which added section 1363 h 27,960 the National Flood Insurance Act of Ivea (Title XIII of the Housing and Urban Development Act of 1966 (Pub. L. 70 448) 310.040 42 U.S.C. 4001 A128, and 74 CFR 1917.4(a). These elevations, together with the fisod plain managemen 311,639 measures required by Section (VIII.) of the program regulations. are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plais management requirements. The community may at any firm

eract stricter requirements on its own or pursuant to policie 83,049, established by other Federal, State, or regional entitles, These 18.920 proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings existing buildings and their contents. The proposed base (100 year) flood elevations for selected

Housing Corporation Deadline Nears To Pay Parking To Elect Board

the purpose of obtaining a loan for construction of a senior critzen rental bousing project.

With the assistance of Farmers Home Administration County Supervisor. Richard Greenwood, and County Housing Coordinator. Deborah Lawton, the Corporation has submitted some submitted a pre-application for funding insued by any Maryland law repair work requiring just a for twenty units and a community room. The aits selected for the proposed project is located immediately behind the new Accident Branch of the Ruth Enlow Library.

Maryland's 1978 Wheat Production 3.9 Million Bushels

Wheat farmers in Maryland have produced 3.9 million bushels of wheat in 1978, Paul A. Crowl, Chairperson of the Maryiand Agricultural Stabilizution and Conservation (ASC) Committee, reported, Crowl said the production compares with the 4.7 million bushel total in 1977 and 5.2 million bushels

in 1976. Maryland wheat farmers expect to average 39 bushels. per sere this year, compared with 37 last year and 38 two

. The October I estimate showed that nationally, production of winter and spring 2" x 2" x 8 Ft wheat combined, is expected to drop 12 percent from last year's of 2.03 billion bushels to 1.78 billion, and 17 percent less than the record buth 1976 crop. Although the wield per acre inereased in 1978, the overall production decreased priin the 1978 Wheat Set-Aside Tragram, Crowl said. The 1979 Wheat Set-Aside Program was announced on August 15 and is very summise to the 1978 pro-

Crowl and winter wheat seedings for the 1979 harvest reached 48 percent complete by October 1, lower than last year's 65 percent and the average of 58 percent. Planting in the Northern Great Plains advaried rapidly and kept pace with recent years. In the Central and Southern Great Plains, wheat seeding lagged during September because of dry soils. Late September rums in parts of the region improved sermination prospects of dry-seeded stands

Body Boondoggle . . .

The transport of over 900 dead bodies from Guyana should rank near the top of the list of outrageous expenditures by the U. S. federal government this year. Nine million dollars, roughly \$10,000 per corpse, has come out of the taxpayers' pockets to fund this ludicrous effort. Deer Kill Reaches We would like to share Jeffrey Hart's viewpoint on this issue. Mr. Hart is a writer for King Features Syndicate, Inc. He makes three excellent points in his Three Seasons

 These people chose to leave the United States and Garrett County's deer kill for settle in Guyana. They then chose to die there, or at least the 1978 season reached 856. the adults did.

When an American soldier dies overseas serving his previous years. In 1977, 768 country, he certainly deserves to be brought back home. bucks were brought down, at the country's expense. He was sent there by his while in 1976, 788 bucks were country. However, if a friend or relative dies abroad the The largest deer turned in family must pay the freight for the body, and rightly so. was the 186-pound, ten point Is the U. S. government suggesting that we are all killed by Jerry Sisler, Friendsrelatives of the people of Jonestown?

murderers. Nearly 200 children, who were not followers of stations aboved that 159 were Jones, were slaughtered while the adults either served the turned in at Walt's, McHenry; cyanide or stood by and watched. Both actions qualify as 280 at Hetz' in Grantsville: 205 at Paul's Pennzoil: 38 at murder counts.

but most will not be claimed. They will be kept refrigerated for a while and then be cremated. Why couldn't they have been buried or cremated in Guyana?

Johnny's Bait House, one at Deep Creek Park; and 45 from other checking points.

FLINTLOCK SEASON Nine million dollars . . . just think, that amount of For the first time, Maryland money would have more than paid for the building and in permitting a three-day finitrenovation program of the Garrett County Memorial lock season to Garrett County, Hospital, a program which will improve the lives of the acason begins Thursday, thousands of people in the future. In other words, that December 7, and concludes money could and should have been spent on the living, not Saturday, December 9. Both

Hospital Project Decision Delayed

A decision which was expected yesterday on the proposed annex and renovation project for Garrett County Memortal Hospital by the Health Systems Agency of Western Maryland has been delayed until December 13, according to Carl Strayborn, executive director.

Mr. Strayhorn said a committee meeting will be held in the Hagerstown Sheraton at which time the matter will be discussed by the certification committee of HSA

The decision, if adopted by the HSA governing body, will be recommended to the Maryland Comprehensive Health Planning Agency which has final authority.

Last Friday evening a standing-room-only crowd heard testimony at a public meeting in Garrett Community College, tians overwhelmingly supported the proposed \$8 million annex and renovation.

Some 36 citizens, physicians hospital board members and others told the crowd of over

54,000 sounce foot annex would accommodate supporting services but "we can't justify an more beds than we have now. He said the building project will expand such departments as X-ray, laboratory, phurally increase the efficiency of

APPRAISAL SERVICE

PSC Orders Four BUBE to reduce its rates

To Make Refunds

BALTIMORE (UPI) - The Public Service Commission's fuel and credits resulting from decision to order four utilities the sale of nuclear power to to refund at least \$7 million in overcharges was a victory for the public and the General decision will set a precedent electric service next winter, said Thursday.

Gary Alexander, a special counsel for the state consumer advocate, said "Maryland Utilities must absorb any incitizens will get some money creases in the cost of providing trol fuel rates in the state."

The PSC ordered the refunds Wednesday, assessing Baltimore Gas & Electric Co. \$7 million and smaller but undetermined amounts against tation to a new state law, three smaller utilities: The Delmarva Power and Light Co. on the Eastern Share, the Potomac Edison Co. in Western Maryland and Potomac Maryland.

Utility Companies The PSC ordered the refunds and reductions because the utilities improperly calculated certain inventory and transportation costs for nucleur other utilities.

Alexander said the PSC Assembly, a consumer lawyer under a 1978 law requiring even if customers do not pay public hearings when a utility wishes to raise its fuel rate by time until a uniform plan for more than 5 percent.

back and the legislature has fuel of 5 percent or less Those won its battle to strongly con- costs were formerly called the fuel rate adjustment clause and were automatically passed on to the customer. "The commission appears to be giving a strict interpre-

which should have a beneficial impact on lowering the rates which all the companies filed in these cases," Alexander

The commission also ordered would save, but a BG&E is developed, the commission said spokesman said refunds will amount to about it per customer and appear on the January: bill.

BG&E will refund \$5 million to its larger customers and \$2 million to its 722,060 residen-

commitment decision to suspend shutoffs of gas and The moratornum will conbelong low-income costomers

How to have \$185,000 for retirement and lower your taxes while you're getting there.

Sure, it's a staggering sum. But the great thing is, the First National Bank of Oakland can help you get it together painlessly. If you're not currently participating in a retirement plan, just open an Individual Retirement

You can put in 15% of your earned income up to \$1,500 a year. Even if you save less-say \$500 a year-you'll still be surprised by the amount you'll have when you retire. And these contributions, in turn, are dedoctible on your Federal Income Tax return. So you get a tax reduction

Drop by any First National office and ask about an Individual Retirement Account. Or, send in the coupon

below for further information. Either way, the sooner you open an IRA at First National, the richer you'll be for it. We add interest to your savings at an annual rate of 724% compounded daily. Here's an example of how much you could save:

If you save for	Annual Contribution	Accumulated Interest	Total at Retirement (age 59½)
10 years	1,500	* 8,545	1 23,545
15 years	1,500	1 21,707	1 44,207
20 years	1,500	1 44,646	3 74,646
25 years	1,500	* 81,991	1119,491
30 years	1,500	140,558	185,558

*Based on an annual lump sum contribution invested in a time deposit with interest at 1.75% (effective annual yard of \$ 007%) and with a maturity of 3 years or more. Federal law requires substantial interest penalty for early withdrawa

Local Parents Anonymous To Meet the hospital

The local chapter of Parents victims of similar abuse or on Monday, December 11 from they were children. Etmlinger, Joy Lane, and Volunteer coordinator. Shella

Parents Anonymous is a crisis intervention program Of Janoske Car which aids parents in preventing damaging relationships between themselves and their children. Parent's Anonymous is for parents who feel they are alone in coping with their children, who want their current relationship to be different, less explosive and tense, and who want a more fulfilling and loving family life.

According to local directors the organization was founded in California in 1970 by a 29year-old mother of two daughters who sought mental bealth services in ten state and county agencies for three years until she finally found care under a counselor, Leonard Lieber. She confronted Lieber with the fact that her child abuse problems still hadn't disappeared and she was angry that no one had thought of something specifically designed for parents suffering similar problems.

Her idea to begin a "Mother's Anonymous" group was consistently nurtured by Lieber's support and guidance. Jointly they became the first chairperson and sponsor of Anonymous of Maryland was members of the Board in ad- present, Garrett County joins

Solar Systems Funds Offered

The Maryland Energy Policy Office is continuing to accept applications for Cycle II of its Residential Solar Hot Water Grants Program Under the program, \$67 grants of \$400 each will be awarded to owners and builder/developers of single family housing units throughout the state to help defray the purchase price of approved solar water heating

In addition to the \$400 grant, qualified program participants will be able to take advantage of the Salar Tax Credits con-Act, recently signed rate law by President Carter, Under the hill, 30 percent of the first \$3,000 and 20 percent of the next \$6,000 in solar expenditures would be eligible for the tax credit. The average installed cost for a solar demestic hot water system is

Lutherans believe that the Christ Child looked like any other baby.

The manger holds a Host (communion water) imprinted with the Greek letters XC, being the first and last letters of CHRISTOS, which is Greek for CHRIST.

Yes, He looked like any Hebrew baby of His day. He did plenty of sleeping. He got hungry. He cried. And, as He grew up, He looked like any other boy in Nazareth. Yet, when He was older and started preaching. He claimed to be God. At one point in His life He declared in no uncertain terms,

He that hath seen me hath seen the Father." That a baby, born of a woman, in a stable, in an insignificant land, should claim to be God is an offense to some people, but not to a Lutheran. To a Lutheran this is a miracle . . . a miracle performed by the God of creation, in order that He might show man His love by sending His Son to become a man, living among men, feeding and healing men, and finally dying on a cross for man. It was more than a human baby who came that first Christmas Day - it was God in the flesh. . . and that's a miracle! Hence, Latherans believe God became man and was born of a Virgin and was called Jesus Christ.

Would you like to know more of this confessional and ecumenical church? A cordial welcome will be yours

hospital. Once the two cars arrived at should further reduce the the hospital, the driver kept

right on going Patrolman Ed Hatcher told The Raleigh Register that the most frequent excuse he hears is from teen-age boys caught

speeding at night, who plead they were only rushing to get a girlfriend home by a certain time or face parental wrath.

Hatcher also bears this one quite often: "There wasn't any truffic. I didn't think I would hurt anyone.

At times, both the motorist or officer can get a little red-faced when a speeder is halted. Boyd noted.

"Especially if the driver is a friend of the officer or a public official," Boyd said.

"The fact that you know someone that you have stopped is usually more embarrassing than giving them a ticket."

Plane Crashes In Colorado

STEAMBOAT SPRINGS, Colo. (UPI) - A twin-engine Rocky Mountain Airways plane crashed near the summit of 10,500-foot Buffalo Pass in a blizzard Monday night, killing one person and injuring the other 21 - including an 8month-old baby. They survived the night as one of them put it, "... huddled together in small

When the plane went down, it snagged on a 230,000-volt power line and the resulting brief power outage helped guide a rescue force on a snowcat to the wreckage. The searchers forged through 3-foot snowdrifts to reach the site at midmorning Tuesday - 15 hours after the crash.

Reclamation New Dimension

MORGANTOWN. W.Va. (UPI) - Beclamation efforta once were directed at restoring the natural setting of a forest before the big shovels came in area hospital even though her notified of the threat but did and gouged the mountains for life had been threatened, it was not think it was serious, he

Come next year, however, miners not only must worry about beautifying the area, but making sure wildlife can live in

Dr. David E. Samuel, associate professor of wildlife management at West Virginia University, told a symposium on Surface Mining and Fish and members spent the next 24 Wildlife Needs that the new hours trying to persuade the rules represent "a whole new ball game. Speier was an important Ending today, the three-day witness to a federal crime, the

gathering was co-sponsored by WVU and the U.S. Fish and Wildlife Service More than 136 persons, including experts in reclamation, wildlife and mining technology, attended. Samuel said rules probably are the first to require that strip mine reclamation be performed to benefit wildlife

and fish. Surface mining firms soon will need all the information they can get about this type of comment on "events leading up reclamation," he said.

> The keynote speaker, Dr. Charles Beasley of the Office of Surface Mining of the Department of the Interior, called on the officials to "be concerned with getting their technical information and discoveries into hands of surface mine need the information if they are to do their job of supplying the nation's coal needs.

Paul S. Frank, Jr. MOON BOMBARDED Shortly after its birth the Moon's surface melted and then solidified. For about sex hindred million years after that, the lunar surface was pelted by a steady hail of meterorites. This bombardment pulverized the lunar crust. Then about 2.95 billion years ago, the bombardment became a cataclysm. Large asteroid-like chunks of material struck the moon scattering debris, scooping out huge basins, and piling material to form mountains. After 500 million years, the barrage stopped. The origin of this cataclysmic humbardment is not known. It may have been connected with the asteroid belt now found between Jupiter

VA Compensation Payments Increased Under New Law

The Veterans Administration today alerted disabled veterans in Maryland to a provision of a new law that could mean an additional \$175 a month in VA compensation payments to them.

The added payments are authorized by "The Veterans Disability Compensation and Survivors Benefits Act of 1978," which was signed on Octoher If by President Carter.

In general, veterans eligible for the additional payment are those who suffered the serviceconnected loss, or lost the paired extremity from nonservice-connected causes.

The veteran must have been rated less than 100 per cent disabled by VA for his serviceconnected injuries to be eligthie for the newly added compensation for nonservice-connected loss, Mr. Rue said

payment for a veteran with or its use, is \$211.

Mr. Rue said VA is using a special appeal for assistance from national veterans organirations in locating disabled veterans who may qualify for the new benefit.

Our computers can identify seterans who have serviceconnected loss of extremities, but we have no way of knowing how many of them have subsequently lost a paired extremity from nonservice-connected causes," be explained.

Mr. Rue urged any disabled veteran who believes he might be eligible for the additional payment to contact the nearest VA regional office, or w member of one of the veterans organizations in the community. The Veterans Administration in Baltimore is iscated at 31 Hopkins Plaza, Federal Building, Room 124, Baltimore, Maryland, They can be reached at 685-5454, or toll-free within the state of Maryland at 1-800-492-9500

### Maryland's Big Chance

One point that the majority of Americans seem to agree upon these days is that state and federal govern- VOLUME 102 ments must cut taxes and curb spending before an effective battle can be waged against the problem of in- Harman Proposes flation. Many state governments are struggling right now just to make ends meet. However, it appears now that the Fines For Vepco state of Maryland will again end the fiscal year with a huge surplus, as it did last year. The amount will be in the neighborhood of \$220,000,000 plus.

CHARLESTON, WV (UPI)

- West Virginia Delegate the neighborhood of \$220,000,000 plus.

This surplus indicates either overtexation or more Mineral), said Monday a conservative spending. We feel that the former is federal agency has proposed probably the case.

Whatever the reason for the budget surplus, Gover- Virginia Electric and Power nor-elect Harry Hughes stated this week that he is Co. for health and safety thinking of expending his tax relief program that he violations at the Mt. Storm designed during his campaign. His plan presently includes plant. increasing the standard deduction from \$500 to \$1,500. Harman said he had learned expanding the property tax relief program to include that the Occupational Safety renters and giving full benefits to every homeowner or and Health Administration renter eligible for the program. Hughes also hopes to found two willful, 31 serious remove the state sales tax on equipment used for farming and 27 other violations in and manufacturing, reduce the state property tax rate in addition, compliance and either remove the tax on carryout food or increase officers who inspected the the cutoff point from the present \$1 level

It is this very type of action that is needed right now numerous health violations, to ease the burden on the American pocketbook. We hope including problems with dust Mr. Hughes will go forward with his plans and be suc-particles, respiration equipcessful in his endeavors. As was stated previously, many ment, noise and ventilation states are in a financial struggle and few will end the A spokesman for the OSHA year with a surplus. This is Maryland's big chance to be uffice in Charleston declined to among the first states to cut the budget, cut taxes and confirm the report because he said the agency was not

On the national level, President Carter's federal the list of violations, mailed budget for the coming year also promises to be slashed Friday. considerably. He knows that his political future, and indeed the economic future of the country, depends on it. declined to comment because Hopefully our seemingly inept Congress will see its way she said Vepco had not Garrett County's three new leaders assumed their offices as county commissioners in facilities should be ready for commissioner representative

SPACE AGE TECHNOLOGY - This partiable compute ferminal located in the Mt. Lake Park office of American Sun Systems, Inc., is telephone-linked with computer banks at the University of Wiscomin. The system utilizes pertinent data on Garrett County to custom design appropriate active solar systems to meet energy requirement needs.

HOW TO BUY SOLAR overcome:

1. The consumer's own lack states the report claims.

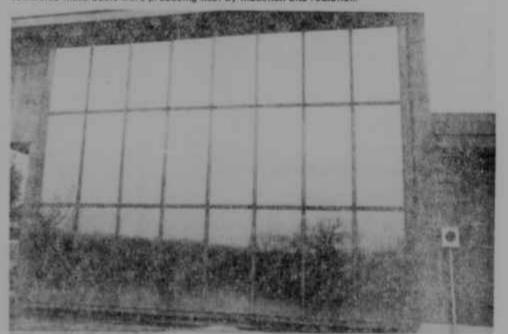

Ask for proof that the warranty before you buy. Ask product will perform as advertised. The proof could come

from an independent labora-To get your money's worth, tory or a university. You three main obstacles must be should have the capact itself, not what the manufacturer

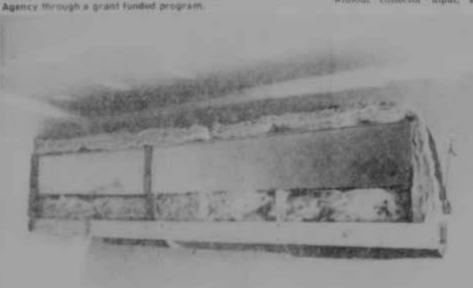

of knowledge and inexperience. Examine the warranty carefully. Remember that ac-2. Manufacturers who cording to the law the unintentionally build shoddy manufacturer must state that products and who are over- the warranty is full or limited. enthusiastic about their If it is limited know what the limitations are lies long does 3. Deliberate fraud and mis- the surranty hist? Are parts, service, and lanur covered? By relying on competent Who will provide the service? engineering advice, many Does the equipment have to be potential problems can be sent back to the manufacturer avoided. Additional steps to for repairs? Make sure you understand the terros of the

READY FOR ACTION - The intricate system of ductwork, seals, and vents, heats the home cleanly and afficiently. The system is so effective that even before the collector punels were connected these ducts were producing heat by induction and radiation.

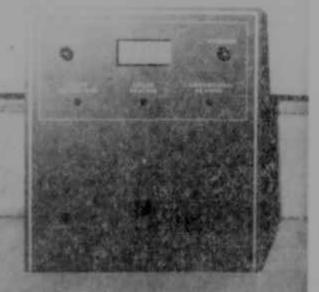

MIRROR OF THE FUTURE - This solar wall which was recently installed on a home in Kings Hill Estates, Mt. Lake Park, resembles a grouping of ultra-modern windows. The collector panels are activated by either diffuse or direct sunlight. Unlike previous root mounted designs, The wall mounts are placed on the home's southern exposure to take full advantage of the low horizon winter sun.

DECEMBER'S CROP. - Mrs. Bernie Graves. Loch Lynn, is

TRANSPORT SYSTEM - The heavy gauge aluminum duct work is heavily insulated to prevent heat loss. Ductwork runs from the heat storage unit to vents throughout the home. A system using eufectic saits as the storage medium makes the concept much more competent than the older rock/water storage units.

CONTROL UNIT - Once a conventional thermostat is mounted on this solar air control unit component (SACU) it will begin monitoring four different modes of operation including. space heating, free cooling, off-peak cooling, and domestic

### Mistletoe Isn't Just For Kissing. Ancients Thoug at It Prevented Illness

"For centuries, people all over the world have considered mistletoe to be a charm scains disease, witchcraft, and infertility." says the bimonthly publication of the National Wildlife Federation. Mistletoe superstitions probably came about because of the anusual and rather cerie way in which the plant grows.

Mistletoe Flourisless :: trees, where it robs the host tree of water and mairients. Often, the host tree is so since mistative con produce its

"Mud and snow tires should free wheel on an axie with a French physicians used anyone willing to venture out always be mounted on the axie conventional differential gear mistletoe as an antidote for into the woods can gather that propels the vehicle in turns at twice the speed shown poisons. And one 17th century mistleton with a pair of order to gain the extra traction on the speedometer and can that these tires provide," said cause the tire to explode, But some traditions charge Council Chairman Malcolm R. resulting in vehicle damage

> Snow tires are mounted on trucks, but since more and more vehicles are being manufactured with front-wheel and four-wheel drive, precautions getting ready for winter

If you have a four-wheel drive vehicle, you should put snow tires on all four wheels for maximum traction," Lovell advised Also, all four tires should be of the same diameter and construction, either bias

ply, beited bias or radial." Lovell said that if radials are used on the front-wheel or rear-wheel drive. The handling of a cur can be severely affected if you have radials on front and bias or belted hias on the rear

The Council chairman noted that in some areas if those who don't have snow tires, may be fined if they get stuck and block traffic on a snow emergency route.

Snow tires made in the U.S. since Jan. 1, 1976, have the words "Mud and Snow" or nome contraction, such as "M/S," molded on the sidewall under a voluntary industry standard.

The Tire Industry Safety Council offers these other tipe for winter driving

- Never reduce tire pressures to increase traction on snow or ice or in mud. tires and reducing pressure doesn't mercase traction any

- Manitam inflation pressures recommended by the vehicle mamilacturer. Check tire pressure frequently. Tires.

### Applications For Cabin Rentals Being Accepted

Summer season applications for cabin rentals in the State Parks are being accepted now by the Maryland Department of Natural Resources Park Service in Annapolis Cabins are available at Herrington Manor, New Germany and Elk Neck parks with rental fees varying depending upon cabin size. Only one application will be accepted from each person or address.

The season begins on June 9, 1979 and runs through Sepember 12. At Herrington Manor and New Germany two. four and six person cabins are available. All cabins at Elk Neck State Park are built to accommodate four persons.

Applications must be received in the Annapolis office of the Maryland Park Service by January 8, 1979 in order to be eligible for the lottery-type drawing on January 15. Reservations must be made from

Saturday to Saturday. Cabius are also available for a minimum of two nights during the off season - from May 11 to June 15 and from September 15 to October 14. Requests for cabins during the off season can be made no sooner than 30 days prior to the beginning of each season.

Information and applications may be obtained from the Maryland Park Service, Department of Natural Resources, Tawes State Office Building, Annapolis, Md. 21401 - (301) 269-3771 or through any of the three parks which have cabins for rent.

### Estimates Raised The Maryland Bourd of

Revenue Estimates, consisting of State Comptroller Louis L. Goldstein (Chairman), State Treasurer William S. James and State Budget Secretary Thomas W. Schmatt, reported. this week that a booming Mary and economy is allowing it to raise estimates of some State recenues for the fiscal year which will end on June 30. 1979. The Board reported Maryland's economic growth has been strong since April.

During this period, personal income increased - for the first time ever - by more than \$1 billion between successive quarters," the Board's report stated. It further noted that the \$1 billion growth in Maryland personal income has occurred three times during the last five measurable quarters.

The Board of Revenue Estimates also noted that total employment in Maryland has increased by 189,000 jobs since the first quarter of 1977, including an "incredible increase" of 100,000 jobs in the past year.

As a result, the Board now and note and is wrapped and projects. State sales tax revenue for Fiscal Year 1979 to amount to \$887,075,000, a 9.4 percent increase over the \$638,005,000 received during the last fiscal year. State individsal and corporation income tax revenues are projected to reach \$1,087,741,000 for Fiscal Year 1979; up 9.1 percent from the \$996,920,000 collected during the previous year The State income and sales taxes are the two largest sources of general fund revenue.

These additional revenues will allow Maryland to provide government without a tex increase. We are recommending using some of the higher than expected revenue to further reduce the State real estate tax projects on a pay-an-you-go the taxpayers an adultional and the championship game. The hot meal for the Senior fifty cents for every dellar Maryland's Triple A general obligation bond rating, the best you can get." Mr. Goldstein

said. In its report, the Board of Revenue Estimates also noted that Maryland this year will benefit from nearly \$16.3 million as a result of settling two legal disputes, one with the U. S. Department of Health, Education and Welfare, and another with the bankrupt Penn Central Transportation

Maryland Revenue only revenues.

total State revenues for the for the future without incressyear which will end June 30, ing taxes. In effect, Maryon will total \$4.475,290,000. land's surpluses have belped to up 10.6 percent over the keep a balanced economy, pand hats error or gold and hang \$4,046,269,000 received for While portions of the surplus

Fiscal Year 1978. timbes for the current listal relief, the surplus itself is a new tester in helf and hanged to year are very optimistic," stabilizing not a sinister part one sole so that a would open and Comptroller Goldstein said, of State government finances 'we are very much aware of the many indications of some type of recession in the next year which can affect State revenues. For that reason, we are not projecting the same type of growth for Fiscal Year

The Board also indicated that, if current spending levels are maintained, the State could turve a general fund surplus of \$100,153,000 when Fiscal Year. 1979 ends on June 30, 1979. There has been a great deal of masunderstanding about the nature of a surplus. Aside from the fact that Maryland constitutionally may not have a budget definit, the State's surplaces have historically allowed Maryland to make it

such as the one experienced in Mr. Goldstein said.

Arkansas. Mr. and Mrs. A. T. Friend Guesta of Mrs. Julia Skidwere Sunday dinner guests of more during the week were Seventeen members and their son, Terry, and Miss Mrs. Tom Jones and sons, Herrington Heights: Mrs.

Joyce Skidmore and son, Alan, Roxanne Thomas and a friend, Washington, D. C., spent the weekend with her parents, Mr. and Mrs. Warren

Thomas. Visitors during the week of Mrs. Margaret Rush were Mr. and Mrs. Mack Rush and family, Hoyes; Barry Rush, McHenry; Mr. and Mrs. Dean Bush, Accident, Hoxanne Thomas and a friend, Wash-ington, D. C.; Mrs. Tom Jones

and Mrs. Julia Skidmore. Mr. and Mrs. Larry Lucas and family have moved from Denver, Colorado, to a home at

Special Appeals has ruled that lie detector evidence still cannot be used in court.

### Jury Convicts Two in Motor Vehicle Charges

A jury convicted two men of meter vehicle charges in Circuit Court last week. Judge days last week. Henry Fred A. Thayer then passed sentence on both. The two cases were combined.

> John William McKenzie, HD t. Grantsville, had been charged with driving or attempling to drive a motor vehicle while intoxicated and permitting an unauthorized person to drive a motor vehicle. McKenzie prayed a jury trial and the case was transferred from District Court in July. He entered a plea of not mulity.

At a jury trial last Tuesday, a motion was made to delete Sec. A in the charge changed Sickle were Sunday visitors of to Sec. B) and the motion was granted. The jury then found McKenzie guilty of driving or alcohol. He was also found guilty of permitting a vehicle to be operated by a person not authorized. On the first count, Saturday dinner guest at the Judge Thayer fined him \$200. Thomas home. Other visitors. He was also given a two-year were Mrs. Ethel F. Friend, sentence which was suspended and he was placed on supervised probation for two years. On the second count, he was

fined \$100 and costs.

In the companion case,

David Charles Wilburn, RD 2, jury found him guilty of driv- money's worth. ing a vehicle while his license or privilege was revoked. and Mr. and Mrs. Cecil rection for one year. All but 50 be placed on probation under in addition, ads for wood

HONORED FOR LEADERSHIP - Two March of Dimes volunteers were honored recently for many years of leadership in the Garrett County campaign. Verna Harvey, left, has been a volunteer for 25 years, serving eight years as chapter chairman and as Mathers' March chairman the remainder of the time. Lester White, Sr., right, was honored for 12 years of leadership, and is: now Garrett County's campaign director. Presenting the awards were Mary Kathryn Speicher. chapter chairman. A campaign kickoff dinner outlining the program for the coming year was held December 4 at Will o' the Wisp. The Mothers' March will be held in January, and a Walk-a Thon and Bike-a-Thon are planned later next year.

### CALLING ALL Homemakers

Brought to you by Debbi Paige

TWO RULES FOR FURNITURE

Many years ago, a man named William Morris said something about home decorating that offers a goal to strive

Morris said. "Have nothing in your home that you do not know to be useful or believe to be beautiful:"

When you stop to think about it, those are two main rules or standards for furnishing a home usefulness and beauty, and it gives you a starting point to keep in mind in decorating your horse.

When wondering what furniture to replace or what furniture to buy, it might be a good idea to start to replace those pieces which you do not feel are as beautiful or useful as they might be.

That's the standard by which snyone should furnish, and we stand ready to help you get furnishings that will bring both beauty and convenience to you and your home. Feel free to browse here with no obligation.

So, please feel free to stop in and see us at your convenience. We're here to serve you.

INDOORS OR OUT

Last time I talked about

nylon, one of the marvelous

synthetics that have

brought exciting changes to

carpeting in recent years.

Maybe after hearing about

the great strength and

wearability of nyion, you

decided. "That's the one for

me." But don't be too hasty.

There are a number of

other marvelous synthetics

that have appealing

properties of their very own

special properties that

you'll want to know more

Take Polypropylene for

example. Polypropylene,

also known by its generic

name Olefin, is the fiber

most often used in

indoor/outdoor expeting.

As you can probably guess,

Olefin is wonderfully

weather-proof. Its non-

absorbent qualities actually

resist moisture. Carreting
